FENEPRO

ABOUT

Not all UPVC Profiles are created equal.

FENEPRO UPVC Profile is a large-scale manufacturer with over a decade of experience in high-quality UPVC Profiles.

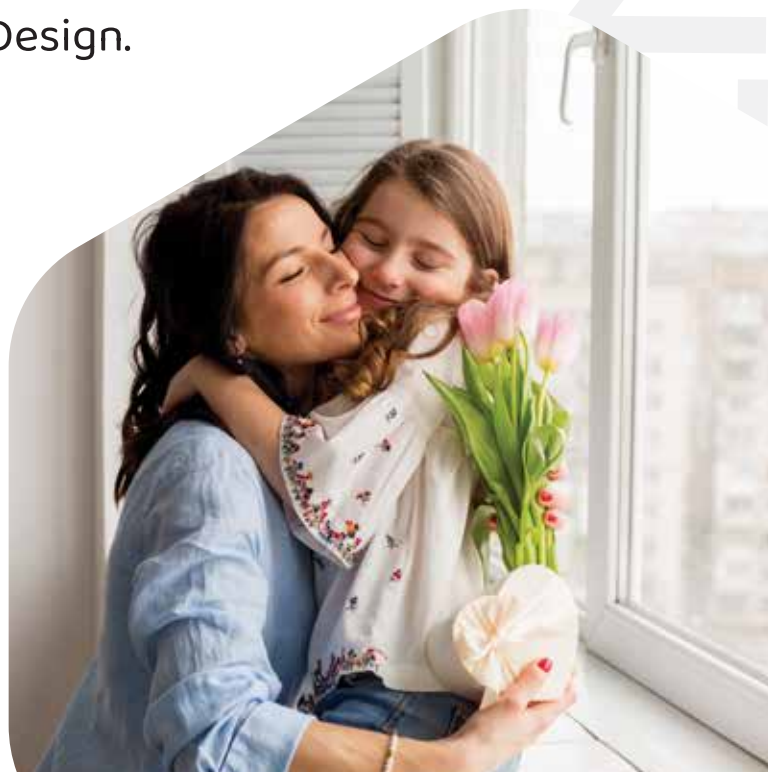

We have an expert team that has the expertise and knowledge to produce window profiles in India that not only exceed in performance but also offer bespoke visuals that will perfectly complement any style of property they are installed in.

FEATURES

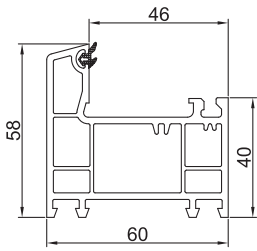

Craftsmanship, Technology and Design.

FENEPRO UPVC Profiles are treated piece by piece and verified by our in-house quality control team as per international standards.

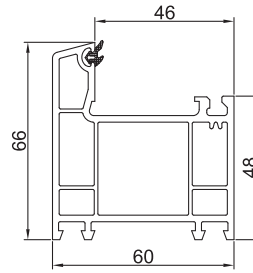

FENEPRO profiles are totally made in India in line with Quality Assurance certifications. Today, we can boast a wide range of profiles, finishes, and solutions for windows and door frames, which, combined with the flexibility and craftsmanship passion that come to us from our world class workshop, practically do not set any project limits.
